

DDI- 04984-84/1

29 August 1984

Note for ADDI

SUBJECT: Implementation Plan for  
the FIRF

1. The FIRWG has reviewed and approved the implementation plan for submission to the IPC for concurrence. Once IPC concurrence is obtained, the FIRWG will begin a detailed reexamination of the structure and content of the FIRF. Other projects, such as  Intelligence Requirements Working Group, will contribute to the utility and completeness of the overall effort. (I foresee a number of structural changes, especially for the presentation of wartime requirements.)

2. Please sign the accompanying memorandum.

Chief, IPC Staff

INTELLIGENCE PRODUCERS COUNCIL

29 AUG 1984

MEMORANDUM FOR: Intelligence Producers Council

SUBJECT: Implementation Plan for the IPC's Future  
Intelligence Requirements Forecast [redacted]

25X1

1. Following the extensive support provided by the IPC to the COMIREX-sponsored study on future information requirements and to the SIGINT Committee's Future SIGINT Capabilities Study, the IPC determined that it was appropriate to assume a more positive, systematic role in defining and presenting future information requirements for the Intelligence Community planners. [redacted]

25X1

2. The first step in this process was to obtain the concurrence of the DCI that the IPC is the appropriate body to provide long-range planning support. This step was accomplished by the DCI's concurrence with the Chairman, IPC memorandum of 1 May 1984 (Attachment A). [redacted]

25X1

3. In order to fulfill this responsibility, the FIRWG has prepared an implementation plan (Attachment B). It is a representative plan and is adaptive to the needs of the Intelligence Community. Please forward your comments or concurrence on the implementation plan to [redacted] Chief, IPC Staff [redacted] by Friday, 14 September 1984. [redacted]
